# MY DIAMOND RING
BY SCHULLIN

Printable Ring–Size Kit

FOR ACCURATE RESULTS, PLEASE PRINT THIS PAGE AT 100%

Measure the ring size using an existing ring

1. Cut along the dotted line.
2. Roll the strip of paper into a loop.
3. Place a ring around the loop – the ring should accurately fit the finger you want to measure, and preferably have no large stones or irregular shape.
4. Determine your ring size by reading the measurement indicated at the arrow.

Measure the ring size directly on the finger

1. Cut along the dotted line.
2. Fold the grey sections inward.
3. Make a slit at the dotted marking located below the word "READ."
4. Feed the end part of the paper through the slit, place it on the finger and gently pull.
5. Determine your ring size by reading the measurement indicated at the arrow.
